

Project Manager/Application Engineer - an exciting challenge in a global organization

Huhnseal AB is a Swedish company that develops and manufactures mechanical seals for the modern process industry. At the site in Landskrona, sealing solutions are designed, tested and manufactured for the global market. Our customers are found in a wide range of businesses such as pulp & paper, food & beverage, pharmaceutical, mining, general process and in the offshore industry. Huhnseal AB has a long tradition and experience of manufacturing customer specific solutions for the OEM Market.

Huhnseal AB is in an expanding phase, and we are now looking for an Application Engineer to our site in Landskrona. You will be part of our Global Product Development team and report to the Product Development Manager Sweden. At Huhnseal you will get the opportunity to work with world-leading technology in both exciting and developing projects. The main responsibilities are:

- Technical responsibility towards specific customers and applications
- Define and support new customer projects through the whole process within Huhnseal
- Lead projects within technical development of new products and platforms
- Support customers with technical issues such as seal design and function, trouble shooting, application questions, claims, installations, downtime etc.
- Support the Huhnseal Sales- and Customer Service Departments in technical issues
- Provide advice on product selection as well as risk analysis in quotations.

The successful candidate will preferably have a background within Mechanical Engineering or similar, and 5 years of relevant working experience. Experience from mechanical seals, pumps and/or rotating equipment is seen as a merit as well as experience within project management. The position requires Swedish and English on a business level.

As a person we believe you are structured, analytical, flexible and possesses a high technical interest as well as a customer focus that will enable you to deliver high quality results in any given situation.

We offer a permanent position, located in Landskrona, with startup according to agreement.
