

Design Engineer

An exciting challenge in a global organization

Huhnseal AB is a Swedish company that develops and manufactures mechanical seals for the modern process industry. At the site in Landskrona, sealing solutions are designed, tested and manufactured for the global market. Our customers are found in a wide range of businesses such as pulp & paper, food & beverage, pharmaceutical, mining, general process and in the offshore industry. Huhnseal AB has a long tradition and experience of manufacturing customer specific solutions for the OEM Market.

Huhnseal AB is in an expanding phase, and we are now looking for a Design Engineer to our site in Landskrona. You will be part of our Global Engineering team and report to the Engineering Manager. At Huhnseal you will get the opportunity to work with world-leading technology in both exciting and developing projects. The main responsibilities are:

- Produce technical drawings and specifications in 3D CAD and BOMs in ERP.
- Refine/implement developed concepts according to current standards.
- Participate in projects together with the colleagues in Sales-, Product Development-, R&D-, Quality-, Purchasing- Production- and Assembly departments.
- Write assembly instructions and manuals.
- Give internal technical support and manage internal- and external complaints.
- Actively contribute to continuous improvements within the department and the company.

The successful candidate will preferably have 3-5 years of relevant working experience of 3D-CAD and Product Design and/or a post upper secondary school (gymnasium) degree in Mechanical Engineering or similar. Furthermore, experience from mechanical seals, pumps rotating equipment or similar, as well as experience in machining technology in stainless steel (milling/turning), MS Office and PDM. The position requires Swedish and English on a business level.

As a person we believe you are structured, analytical, thorough and meticulous, and possess a high customer focus that will enable you to deliver high quality results in any given situation.

We offer a permanent position, located in Landskrona, with startup according to agreement.
